KEYNOTES AND WORKSHOPS:

Inspirational Keynote: What Is Your Imprint?

How can we shape our imprint on the people we care about and the world at large by living in a way that shines with the attributes that we hope will live on when our time on Earth is through, leaving a legacy of our own design?

Facilitated Workshop: Living Your Legacy on Purpose

Combine wisdom and practical approaches to embark on the journey toward Living Your Legacy on Purpose, shaping the imprint we wish to leave on the world.

Professional Inspiration and Development Session: Aligning Your Personal and Professional Impact

Determining your professional legacy is really about living your personal values...at home and at work. It starts with living in a way that shines with the attributes that we most hope will live on as our legacy.

Susan's personal and professional shifts include a leap from life in the California suburbs to a simple life on the African plains. She has counseled incarcerated minors and corporate leaders, started and folded several businesses, consulted with American executives, Maasai elders and Indian land developers, and also raised two amazing daughters.

She gained valuable wisdom about recognizing gaps in contentment, figuring out what needs to change, and finding the courage to make it happen.

Her talks and workshops guide you toward answering an important question...
